

## **Patent Attorney**

KIPA is a private practice founded 2006 in Helsingborg and has since then grown to a staff of about 10, including 3 EPAs with offices established in Helsingborg and Gothenburg.

For continued expansion KIPA has an opportunity for an entrepreneurial minded Patent Attorney. Your background is preferably in physics, electronics, software or mechanics with an interest in health care or medical technology.

You have at least 1-2 years working experience with patent prosecution and are aiming to sit the EQE within the next years. KIPA support you in this effort.

Tasks will comprise a full range of searches, drafting, filing and prosecution of EP, PCT and possibly Swedish patent applications. As KIPA works internationally, fluency in English is a must. Knowledge of German and/or French is an advantage. You will be based in Helsingborg
