

## **European Patent Attorney**

KIPA is a private practice founded 2006 in Helsingborg and has since then grown to a staff of about 10, including 3 EPAs. KIPA has offices in Helsingborg and Gothenburg.

For continued expansion KIPA has an opportunity for an entrepreneurial minded, qualified European Patent Attorney. Your background is preferably in life sciences, including health care or medical technology, but may also be within telecommunication, green tech or vehicle technology.

Ideally you have working experience from both industry and private practice. You bring access to your own client portfolio Partnership is an option.

Tasks will comprise a full range of commercial and strategic IP services; litigation support, oppositions and appeals, as well as drafting, filing and prosecution of EP, PCT and possibly Swedish patent applications. As KIPA works internationally, fluency in English is a must. Knowledge of German and/or French is an advantage.
